There are some helpful buttons to save the files. Liu Xiaokai, the CEO and co-founder of Tencent, is apparently now considering resigning his position at the position of CEO of the largest group on Chinese tech. Outgoing Tencent CEO during the Chinese tech press conference, Liu Xiaokai, announced plans to transfer responsibility for the global top position to the CEO of TCL Corporation, Chen Xudong. Chen has been formally appointed this week, according to several reports. Liu is also a shareholder in Tencent, having acquired several shares back in 2010, with an investment of just \$24.7 million. With a global market share of some 65%, being the second-largest Internet company on the planet is quite a hefty position

for Liu to vacate. The post-Liu (or, could I be the old one?) era Tencent will need to fast-track its priorities, and move to new markets in the near future. China's tech market is mature and still growing strongly, but the competition with other

Access to support and feedback. What's New Added several editing effects. Improved stability. Also fixed some issues. Fixed an app not responding problem. Improved the app UI. Fixed a crash bug. App Questions What's new in this version?Q: Using a ComboBox to select a DataGridView I have an object called Inventory which has several properties, one of which is a String called "Item Name". I have a DataGridView which is populated from a list of Inventory objects, and I want to be able to show the Item Name (String) of each item as its name. The way I thought of doing this is having

a combobox list out all the items that I have in the grid, with the display member being the string Item Name. Is there a way to do this? A: It seems that you use

DataGridViewComboBoxColumn. Q: Existence of

A^* -derivation for an algebra with an automorphism Let A be an algebra over a field K with automorphism σ . Let D be a derivation in A . Since σ is an automorphism, we have

$\sigma(D(a)) = D(\sigma(a))$ for all $a \in A$.

But how can I show that the map $ad - da$ is a derivation for all $a, d \in A$? Thanks! A: If $a \in A_1, d \in A_2$ and $aA_1 + A_2 \subseteq A_2$, then $\sigma(a)\sigma(d) = \sigma(\sigma(a)d) = \sigma(d\sigma(a)) = \sigma(da) \in \sigma(A_2)$.

Five people, including a couple from Florida, have been arrested in connection
